Secretary Root contends that the same reasons which lead the United States to re-
frain from Spanish oppression should
lead to legislation which will insure her
commercial prosperity. There is reason
in the argument. Cuba is not a foreign
country. It is the ordinary sense of the term
and is looking to her prosperity
in no sense be construed as a deviation
from the protective policy.

Is the Boer war teaching John Bull
humility? The English Review of Reviews
says: "We have no one crowned or un-
crowned, who can compare as a probable
hero with Theodore Roosevelt. We have
only Edward IV. at Windsor. Whereas
at Washington they have for the first time
President, young, ardent, magnetic, suc-
cessful and full of fire and go."

It was quite in accordance with the
peace at any price tactics of Mr. Rich-
ardson that he should have contrived to
have all the resolutions presented at dem-
onstrations presented at committee, where
they are usually allowed to "die."
This is the policy of the Democratic minor-
ity. It is a policy of no policy on but it
is a policy.

It is estimated that the United States
consumes 54,000,000 pounds of turkey on
Thanksgiving day. That is the equivalent
of 1,000 carloads of 1,000 birds per car,
equal to a train forty miles long. The
latest fact in the case is "broiler turkeys,"
weighing about two pounds apiece and
costing from 75 cents to \$1 each.

Representative George W. Smith, of Ill.,
will introduce a bill in Congress providing
for the reduction of letter postage from
two cents to one cent. He believes that,
as was the case when the rate was reduced
from three cents to two cents, the increase
of small matter will soon make up the loss
of income.

In his annual report, Secretary of Agri-
culture Wilson says that in Texas the large
blackbirds known as jackdaws are, particu-
larly valuable to agriculture by reason of
the insects they destroy and yet they have
been slaughtered in great numbers for the
millinery trade. He calls a very practical
argument for the Audubon Society.

The man who has a system by which he
can invariably win on the Stock Exchange,
if he exists, does not have to advertise for
customers. If the public would remember
that fact the "Get Rich Quick" concerns
would cease to fleece the innocent public
at the rate of \$300,000 a clip.

If Colonel Watterson and Colonel Bryan
could be induced to enter a series of joint
debates, each to prove why he should be
elected to head the new democratic ticket,
the public would be treated to an exhibi-
tion of logical pyrotechnics that would
be a thing to see.

The committee have selected as their
leader in the list of Representatives
James Richardson. He was chairman of
the last Bryanite convention. Does this
indicate that democratic congressmen still
regard Bryan as their leader.

Since the department of agriculture has
introduced Japanese rice into this country
one field has almost doubled and our im-
ports have fallen off \$1,000,000 pounds.
It is certainly a most commendable form
of economy.

There is a large amount of injustice in
the rule which attaches to congressional
title as the name of the chairman of the com-
mittee which reports them irrespective of
whether a member who introduces and deserves
the title for them.

The President has given the United
States authorities emphatic instructions
not to meddle with Cuban politics. He
probably regards the American brand quite
as dangerous enough to the civic virtue of the
set ordinary office-holder.

Cesare Lombroso, an Italian, has un-
dertaken to prove that Christopher Colum-
bus was weak-willed and insane. Can
nothing be done to protect the heroes of
bygone days from the modern psychologist.

A New York optic goods manufacturer
announces a growing demand for sun-dials.
In a few years these will doubtless be ex-
hibited in hallrooms from some of the '400's
and their ancestors.

The Philippine government has a sur-
plus of \$1,500,000, but Secretary Root says
it will soon be disposed of. Evidently the
Philippines need an "Uncle Joe Cannon."
What of their own?

A Washington correspondent advises
that "Uncle Joe Cannon" has returned
from Europe. We breathe easier now for
the sake of the Treasury surplus is safe.

It is said that the surplus of the
Treasury is safe. It is said that the surplus
of the Treasury is safe. It is said that the
surplus of the Treasury is safe. It is said
that the surplus of the Treasury is safe.

Senator Hanna, in an authorized in-
terview speaks of President Roosevelt
as follows: "I believe he will live up to
the expectations of all his dearest
friends. I know he is sincere in all
that he has done and said, since death
so cruelly removed our beloved Presi-
dent McKinley. It is not often that
men come so suddenly and unexpectedly
face to face with the great responsi-
bilities resting on the president of the
United States, and few men could have
met these demands with so much dig-
nity, good judgment and common sense
as did President Theodore Roosevelt.
He merits not only the confidence of
the Republicans of this country, but
he deserves the confidence of the en-
tire nation, and I believe he has both."

Having absolutely nothing to cel-
ebrate in face of the success of the Re-
publican national policies, the Demo-
cratic press, true to their propensity
for fault finding, complain that Gov-
ernor Yates dominates and controls the
state institutions with a strong hand.
The state of Illinois generally and the
Democratic party in particular could
consider themselves exceedingly fortu-
nate had Governor Altgeld exercised the
same judicious and fearless force and
with the same honest and high-minded
motives. It is strictly the province of
the governor of the state to do this
very thing. Failure in this he falls
in his duty. He is the responsible head
to whom the people look for good busi-
ness management of the state institu-
tions and the people generally feel that
this is just the sort of dominant force
that the governor is using.

The poise, the dignity, the good taste
and good judgment which mark the
bearing, words and actions of Mr.
Roosevelt, from the moment he learned
that President McKinley had been shot
while holding a public reception at the
Pan-American Exposition at Buffalo,
on the afternoon of Sept. 6, through
the trying period of the disabled life,
the sad hours following death to the
time of the burial, have quieted and
strengthened the people with an as-
sured confidence in his abilities and
disposition to administer the duties of
his high office wisely and well. The
steadying for great responsibility will
cool, compress and form Mr. Roosevelt
into one of the strongest, most stable
and honorable men who has held the
office of president of the United States.
His instincts are right, his purpose is
to serve the general welfare, his sym-
pathies are for all of the people. A true
and intelligent believer in the justice
and wisdom of the fundamental prin-
ciples of our American government, un-
der his administration we shall hold
every advantage gained and forward
the line in all directions.

POLITICAL POINTS

Mt. Carmel Register expresses the
opinion that Governor Yates has man-
aged to incur the enmity of those
whose friendship will kill any man
they favor.—Mt. Vernon Register.

Notwithstanding the collections of the
Chicago newspaper trust, Richard
Yates is still governor of Illinois and
a majority of the people unite in the
belief that he is a good governor.—
Ipsva Independent.

When factories are prosperous, farm-
ers are equally so. This is what is
now so materially adding the tillers of
the soil in the west, where a surplus
is produced. The policies of the Re-
publican party are helping the masses.
—Golconda Herald Enterprise.

If "the tariff is a tax on the con-
sumer," then this country has accom-
plished the impossible task of getting
rich by taxing itself. We have lifted
ourselves by pulling on our own boot-
straps. But the tariff in most in-
stances is a tax on the foreign pro-
ducer and it is paid by foreigners.

According to Senator Teller, the peo-
ple of Colorado are just now "more
concerned about stopping forest fires
extending irrigation and improvements
of that kind than we are about political
affairs." But what can have happened
to the unforgivable and unforgettable
"Crime of Seventy-three?"—La Salle
Tribune.

Able Democratic exchanges, which
two, three and four years ago were
condemning the Tanner state admini-
stration as bad beyond compare, are
now insisting that the Yates admini-
stration is the worst ever was and ex-
press yearnings for the good govern-
ment we had under Tanner.—Colches-
ter Independent.

Bryan has bought a \$540 standard
heifer and it has been suggested that
a \$111 Pennyroyal bull would make a
poor double standard but it is likely
Bryan is aware of this fact in the
stock business though he cannot grasp
the fact in the currency business. All
the laws that could be enacted would
not make 16 eleven dollar bulls worth
as much as a \$450 heifer.—Decatur
Herald.

Twice within recent years the people
have placed the Democratic party in
control of the government upon prom-
ises which were proclaimed to be for
the best interests of all concerned.
But each time when they attempted
to put their theories in force they fell
down, went to pieces, failed, and were
promptly turned down. It is probable
that the people since March 4, 1907,
under Republican administration, have
become weary of prosperity, peace, order
and will embrace the first oppor-
tunity to change the program. We
would guess not.—Sparta Plain-
dealer.

lake last week and stored such of his

One of the little twin girls of Mr. and
Mrs. Riley died Monday morning and was
buried at Waukegan Tuesday. The other is
quite ill at present and we trust the par-
ents will be able to see it grow and ex-
pand into beautiful womanhood.

The Grayslake Cemetery association will
meet with Mrs. C. C. Morrill Thursday,
Dec. 18. This is not the last Thursday in
the month as it should be, but it was thought
best to hold it that day owing to the holi-
days so near. Remember the date.

Miss Edith Harvey returned to her work
in Waukegan last week, her brother Claude
taking her over. She spent several weeks
with her mother here and remained to see
her nicely located in rooms upstairs, while

The Woman's Club met Monday even-
ing with Mrs. Caroline Robinson. The
work of the evening related to the republic
of Columbia, in South America, and the
recent trouble there, as well as other cur-
rent events, and was very interesting.
The next program will be a literary and
will be given at the home of Mrs. E. B.
Sherman-Dec. 30.

Mr. and Mrs. Orson Washburn rejoice
over the birth of a little son born last Tues-
day, Dec. 10; but their joy was of short
duration, the little one being taken from
them when but a few hours old and was
laid away in Grayslake cemetery next day.
Mr. and Mrs. Washburn have the sym-
pathy of their friends in their loss.

The bazaar given by the Church Aid
society on Thursday was a success socially
and financially. A large crowd partook
of the chicken pie dinner and in the evening
the hall was filled. The selections given
by the colored male quartet were greatly
enjoyed, also the solos with guitar ac-
companiment by Mrs. Decker. The selec-
tions given by Mr. Ira Simons on his fine
graphophone were hard to excel. The
proceeds amounted to \$83.50 besides many
orders for more articles to be made. The
society wishes to thank all those who so
kindly aided in making this a success.

The Eminent Kidney and Bladder Specialist.

The Discovery of Swamp-Root at Work in
His Laboratory.

There is a disease prevailing in this
country most dangerous because so decep-
tive. Many sudden deaths are caused by
it—heart disease, pneumonia, heart failure
or apoplexy are often the result of kidney
disease. If kidney trouble is allowed to ad-
vance the kidney-poisoned blood will attack
the vital organs, or the kidneys themselves
break down and waste away call by call.
Then the richness of the blood—the albumen
—leaks out and the sufferer has Bright's
Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root the new dis-
covery is the true specific for kidney, bladder
and urinary troubles. It has cured thousands
of apparently hopeless cases, after all other
efforts have failed. At druggists in fifty-cent
and dollar sizes. A sample bottle sent free
by mail, also a book telling about Swamp-
Root and its wonderful cures. Address
Dr. Kilmer & Co., Binghamton, N. Y., and
mention this paper.

college spent Sunday at home.

Messrs. L. Simons, J. J. Morley and J.
Van Patten were in this vicinity Monday.

T. McGreal had a force of men working
on the new road last week.

First Traveling Trunk.

The first traveling trunk was so
named because it was nothing more or
less than the trunk of a tree hollowed
out so as to make a box. It is now
preserved in the interesting and beau-
tiful old church of Minister in the Isle
of Thanet, where it is pointed out to
visitors, who are told that it was
brought over by William the Con-
queror among his baggage, but that
subsequently it was used for the col-
lection of Peter's pence. The vener-
able trunk still bears traces of its
money box days in the little slots in its
cover for the coins to be dropped
through.—Chicago News.

A "Judicious" Buyer.

One of the younger proprietors of
one of the big department stores up
town, that advertises "bargain sales"
on a special preannounced day every
week, has been winning all his ex-
periences by betting with his coterie in
Delmonico's that Russell Sage would
be one of the first to arrive at his store
on the morning of the marked-down
disposal. He knew from experience
that the veteran financier rarely in the
spring and fall misuses one of these
"clearings out." Mr. Sage picks up
bargains in all sorts of things which
he can find use for, from a pair of
trousers (\$3.50—original price \$7) to
small kitchen utensils marked down
from five cents to a penny apiece. "If
every one would be as judicious in
their buying as I am," Mr. Sage once
observed to the narrator of this true
story, "there would be less poverty and
the mortification and suffering result-
ing therefrom. Nearly every one is
living beyond his means."—New York
